

MAGENTA POP-LOK SHAKER TOP

Dispensing Closures for Granular Products

FEATURES & BENEFITS:

- Convenient one-piece shaker top with re-seal feature.
- Preserves product freshness and prevents accidental spillage.
- SC (Shaker Cap) series designed with continuous thread for plastic or glass containers.
- Available with shaker orifices of 0.200 and 0.300 diameter.
- Built-in orifices eliminate the need for expensive shaker inserts and the equipment needed to apply the inserts.
- Requires only gentle finger pressure to pop open and seal close the lid.

COMMENTS

- For glass or plastic containers with standard, continuous threads
- 63 mm diameter, neck finish = 400
- Available with and without a liner
- Material: Polypropylene
